

## SHORT CV: ISABEL RODRIGUEZ-MARIBONA GÁLVEZ

Thematic Area: 1

Key areas of Expertise in Digital Heritage:

Cultural heritage management

Diagnosis of built heritage

Energy efficiency in heritage buildings

Doctor in chemistry and Master in Cultural Heritage Management, she has been Head of Cultural Heritage Department of Tecnalia for 12 years, and currently involved in the Technology Direction of Tecnalia's Construction Division.

She has been actively participating in Cultural Heritage research for the last 15 years, publishing many scientific papers and participating at the Scientific Committee of several International Congresses.

She has a wide experience in preparation, management and coordination of European research projects in cultural heritage since early 90', and she has been recruited by the European Commission and other National agencies as evaluator of research proposals.

She is the Chairwomen of Heritage and Regeneration Committee of ECTP, and Vice-President of this Platform. She has been member of the Advisory Group of JPI in Cultural Heritage, and she is the coordinator of the Work Group in Energy Retrofit of the Building Efficiency Accelerator of Sustainable Energy for All initiative.

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
