

## SHORT CV ISIS RUIZ SOLER

Thematic Area: TA5  
Communication and innovation for Cultural Heritage

Key areas of Expertise in Digital Heritage:

- 3D uses (modeling, scanning and photogrammetry)
- VR and other immersive experiences
- Project manager

Degree in Humanities at Pompeu Fabra University (Barcelona, 2002), postgraduate in Cultural Tourism (2003) and Master's Degree in Cultural Management (2005) at University of Barcelona.

He has worked on managing cultural projects both in the associative field and in public institutions of divers subject matters (Historical Memory, Popular and Traditional Culture, Performing arts and Cultural Heritage).

Since the beginning of the Catalan Cultural Heritage Agency (2014), works on communication and innovation projects where new technologies are incorporated to provide the visitor a better visit experience that helps them to interpret monuments and sites. The most notable project is Ullastret 3D & VR experience <http://patrimoni.gencat.cat/en/stories/ullastret-3d-walk-through-iberian-town-existed-2000-years-ago>. We are currently working on a 3D heritage project based on photogrammetry and scanning.

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
