Werner Schweibenz studied information science at the University of Saarland, Saarbrücken, and the University of Missouri-Columbia. Since 2007 he works for MusIS coordinating the digital object documentation of the State Museums of Baden-Wuerttemberg and the publication of online exhibitions. He is a member of the competence network of the German Digital Library. In addition, he took part in several EU projects (ATHENA, Linked Heritage).

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
