

SHORT CV Biba Tominc

Thematic Area: 2

Key areas of Expertise in Digital Heritage:

- researcher in the field of urban renewal, protection and promotion of cultural heritage, urban public spaces, sustainable mobility and participatory urbanism
- interdisciplinary
- multidisciplinary projects

Biba is a geographer working as a researcher at the Urban Planning Institute of the Republic of Slovenia. She participates in multidisciplinary projects.

She is a researcher in the field of urban renewal, protection and promotion of cultural heritage, urban public spaces, sustainable mobility and participatory urbanism. In the framework of domestic and international projects, he focuses on raising awareness and education in the area of accessibility of the built and communication environment for all. Her special passion is cartography and information design, that is, researching how spatial and non-spatial data and research results are presented in a graphically interesting way, with the thought of different users. In 2016 she also successfully defended her master's thesis entitled "Image to Image: Visual Grammar of Kress and Van Leeuwen" as a tool for analyzing the image in multi-word texts at the Faculty of Humanities at Koper University of Primorska. For the needs of research projects, she actively participates in the design and development of online platforms, with a group of colleagues taking care of the graphic image of the institute. She has been employed at UIRS since 2000, she reads books at home, gardens on the roof of the home block, and even more waves on waves.

She collaborates as an expert in the VIMM project (2017).
