SHORT CV
BLAIR PARKIN

Thematic Area: <5>
Key areas of Expertise in Digital Heritage:

Digital technologies in public spaces, museums, thematic parks, design, built environment, transformative spaces, network, consulting, sustainability, discovery.

Blair Parkin (Brighton, UK, https://www.linkedin.com/in/blair-parkin-a45aa/) has spent more than thirty years working with technology in public spaces. As well as leading this year's TiLE Zone he is currently working on the West Kowloon Cultural District in Hong Kong, multiple pavilions for Expo 2020, Dubai and the new National Museum of Jordan.

As a Principal with San Francisco headquartered technology consultancy TEECOM Blair leads the EMEA practice and the cultural sector worldwide (http://www.tileweb.org/speaker/blair-parkin-2/). TEECOM works with architects, designers and owner clients to develop the technology and infrastructure to create engaging environments that advance performance, sustainability, and discovery.

Blair's passion is leveraging new technology, the network, and the built environment to innovate transformative spaces encompassing museum exhibit galleries, new corporate workspaces, and first-of-their-kind theatres and planetariums. Speaking many project languages, from architecture to museums, Blair quickly adapts to his clients' needs and is eager to leave his mark on the world with each revolutionary public, research, and corporate space he envisions.
