

SHORT CV Jasper Ceelen

Thematic Area: 2

Key areas of Expertise in Digital Heritage:

- Digital Producer
- Design

Jasper Ceelen, Experienced Digital Producer / Product Owner/ Project manager, Utrecht, Netherlands

ABOUT ME: I am Jasper. I was born in Haarlem in 1983. I am a bit of a nerd who loves design. My father is a shipbuilding engineer. I grew up on shipyards, surrounded huge ships, big machines and all kind of technology. My mother has always been my loving mother, who encouraged my social skills, creativity and inventiveness. These roots make me love the industry we are in. Sometimes, right at the sweet spot surface of design and technology a little magic sprouts and beautiful things can happen.

I strongly believe in Agile. This fits the way I love to work together with both my colleagues and my clients and their stakeholders: Look for the question behind the request, focus on value, communicate, ask questions, look ahead (but not too far!), dare to try and fix things when you run into problems, make sure there is focus and flow, make decisions and kill some darlings!

I live in the beautiful Utrecht. I love IPA's, good espresso's and Flanders. In my spare time I love making memories with my girl, our friends and family. I run and cycle, except when there's wind... then I go to the water to go windsurfing.

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
