

SHORT CV Margaretha Mazura, based in Brussels

Thematic Area: 2

Key areas of Expertise in Digital Heritage:

matching technology and cultural content
developing technology strategies for museums

MM holds a doctorate in law, with specialisation in the European regulatory environment and ICT. She advises on EU public funding (Horizon2020, ESIF) and supports European SMEs in the ICT sector worldwide (focus: Latin America) through the EMF networks. Recent projects in which EMF participated: LT-Observatory (to make the Digital Single Market multilingual), eCultObservatory (developing technology strategies for museums), AMERICAS strengthening the ICT dialogue between EU and Latin America; e-Jobs-Observatory - identifying new skills and competences for new ICT jobs; LT Innovate - the Forum for Europe's LT industry. She collaborates as an expert in the VIMM project (2016-2019).

Specialties: European project creation, partnership assemblage, project management, communication and business strategies, liaison to EU institutions, EU R&I programmes, matching technology and cultural content.

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
