

SHORT CV Savvas Varitimiadis

Thematic Area: 2

Key areas of Expertise in Digital Heritage:

- archaeologist and cultural informatics specialist

Savvas Varitimiadis is a field archaeologist and cultural informatics specialist. He holds a bachelor degree in History and Archeology of the Aristotle University of Thessaloniki, Faculty of Philosophy. Also holds two masters, one in cultural informatics, University of Aegean and one in Information Systems, University of Macedonia.

From 2006 works at the IT company [Aegean Solutions S.A.](#) as a specialist in project management, content writing, digitization and digital editing. Also he is an expert in planning and developing web portals and digital mobile applications mostly for cultural organizations, museums and touristic sites. From 2011 he works also as an active field archaeologist in excavations in northern Greece and also develops databases and web applications and tools that can be used in excavations.

His scientific interests are the development of digital applications for archeology and museums, the evaluation of digital applications and user interfaces, the use of VR/AR applications and the use of social media.

ViMM has received funding from the European Union's Horizon 2020 Programme as Coordination and Support Action, under GA n° 727107
